Unclassified Position Announcement

ENGINEER, WATER UTILITY

Regulatory Operations, Engineering Division

The Public Utilities Commission of Nevada is seeking qualified applicants for the position of Water Utility Engineer for the Regulatory Operations, Engineering Division. This is an unclassified full-time position within Nevada State Government.

Recruitment: This is an open competitive recruitment, open to all qualified persons.

Approx. Annual Salary Up To \$79,638 (Salary reflects retirement (PERS) contributions by both the employee and the employer. An employer paid contribution plan is also available with a reduced gross salary.) Please note: Furlough leave is mandatory for Nevada State employees and will result in a reduction of income of approximately 2.3% (or 6 furlough days per fiscal year) through June 30, 2013. The Salary listed above does not reflect the reduction from the required furlough.

Resumes Will Be Accepted Until: Recruitment Needs Are Satisfied

Qualified individuals are encouraged to apply immediately. Hiring may occur early in the recruiting process. Recruitment will close without notice when a sufficient number of resumes are received or a hiring decision has been made.

Recruiting For: An immediate vacancy in Carson City, Nevada.

The Position: Under general direction, performs detailed engineering and technical investigations and analysis concerning prudent resource planning and facility planning, design, construction and operation to support the Commission in regulating jurisdictional water and sewer utilities. Provides written and oral testimony for related proceedings brought before the Commission. The position is also responsible for providing direct supervision of two Engineering Analyst positions.

Skills Required: Must be able to work independently with minimal supervision as well as in a team environment in collaboration with other engineers, economists, legal staff, and auditors; compile and summarize information and prepare periodic or special reports related to case assignments; and contribute effectively to the accomplishment of the team or agency goals, objectives, and activities. Must possess skill in effective written and verbal communication; required skills also include planning, prioritizing and executing timelines without the need for supervision. Must be highly professional, well-organized, self-motivated, and must possess leadership skills. May be expected to perform additional job-related duties and may be required to have or develop additional specific job-related knowledge and skills.

Minimum Qualifications: Bachelor's degree from an accredited college or university with major course work in civil or mechanical engineering or closely related field and three years professional level experience with a regulated utility company or an agency responsible for regulating utilities; or equivalent combination of education and experience.

Special Notes: License: Licensure by the State of Nevada as a Registered Professional Engineer is required within six months of appointment. Employees must maintain licensure for continuing employment.
